Start with week 1 this Sunday. Small steps beat a perfect plan.

EVERY SUNDAY

01 Plan a week in 15 minutes

1. **Look in the fridge first**
   What needs to be used soon? Plan it for Monday or Tuesday so nothing goes to waste.

2. **Check your calendar**
   Busy nights get a quick recipe or leftovers. Calm nights can be a new recipe.

3. **Plan 5 dinners, not 7**
   Leave 2 nights for leftovers or eating out. Real life always changes the plan.

4. **Cook once, eat twice**
   Double one or two dinners and plan the leftovers as lunch the next day.

5. **Write the grocery list**
   Add only what you don't have, sorted by aisle. Your To buy view does this for you.

TIP Keep a list of 10 meals your family loves. When you are tired, pick from that list.

   Big packs are not always cheaper. Look at the small price on the shelf label.

3. **Buy store brands for basics**
   Oats, rice, pasta, canned beans and frozen veggies are often the same quality.

4. **Use frozen fruit and veggies**
   Same nutrients, no waste, ready when you need them.

5. **Track what you spend**
   Write the Price in your Grocery List. After a month you know where the money goes.
