06 Printable 90-day plan

01 Check in with your life

BEFORE YOU SET GOALS

AREA	SCORE (1-10)	WHY THIS SCORE?	+1 IDEA
💪 Health			
💼 Career			
💰 Money			
❤️ Relationships			
🌱 Growth			
🎉 Fun			
🏠 Home			
🧘 Peace of mind			

TIP Circle the 2 lowest scores. Your first goals usually live there.

02 Pick the right goals

FEWER, BETTER GOALS

1. **Only 1 to 3 goals**
   Each new goal takes energy from the others. Three is the most most people can keep.

2. **Make it clear**
   “Get fit” is vague. “Run a 10K race on December 13” is clear: you know when it's done.

3. **Write why it matters**
   On hard days, the why is what keeps you going.

4. **Pick a reward**
   Something small and fun you'll get when it's done.

5. **Choose a date**
   90 days is long enough to change something and short enough to stay focused.

03 Break goals into steps

BIG GOAL, SMALL STEPS

Start from the end

What does done look like? Write it as the last milestone.

3 to 5 milestones

Each one is a clear point on the way, with its own date.

1 step per 2-3 weeks

Spread milestones out so each one feels possible.

First step this week

Make step one tiny: sign up, buy, call, open.

Make it visible

Your progress bar fills as you tick milestones. Look at it weekly.

Adjust, don't quit

Move a date if you need to. Keep the goal.

04 Your weekly rhythm

10 MINUTES EVERY SUNDAY

👀 Look back
3 min

- [ ] Tick finished milestones
- [ ] Write what got in the way
- [ ] Write one win
- [ ] Check your progress bars

🗓️ Plan
5 min

- [ ] Pick 3 important things
- [ ] Move late steps to new dates
- [ ] Put them in your calendar
- [ ] Say no to one thing

✨ Dream
2 min

- [ ] Look at your Vision Board
- [ ] Remember your why
- [ ] Add a new dream if you have one
- [ ] Close the laptop

05 IT HAPPENS TO EVERYONE When you fall off track

“I'm too busy”

- Make the next step smaller
- Do 10 minutes, not an hour
- Put it in your calendar like a meeting

“I lost motivation”

- Read your why again
- Look at how far you came
- Tell a friend your goal

“It's not working”

- Change the plan, not the goal
- Ask someone who did it
- Try a different first step

“I missed weeks”

- Start again this Sunday
- Don't start from zero: continue
- Pause one goal if needed

> **Progress, not perfection. A small step today beats a perfect plan tomorrow.**
